

AIDA®

Adapted to your workflow

Worried about protecting sensitive patient data?

AIDA® documentation solution is designed to meet your individual requirements. A highly flexible system, AIDA® seamlessly integrates into existing infrastructures and exchanges data with other systems using common standard interfaces.

SECURITY

- Reliable solution for data protection, eliminating the need for vulnerable external storage devices such as USB flash drives.
- Comprehensive configuration possibilities that guarantee data security and meet cybersecurity requirements.
- Complies with the General Data Protection Regulations (GDPR).

FLEXIBILITY

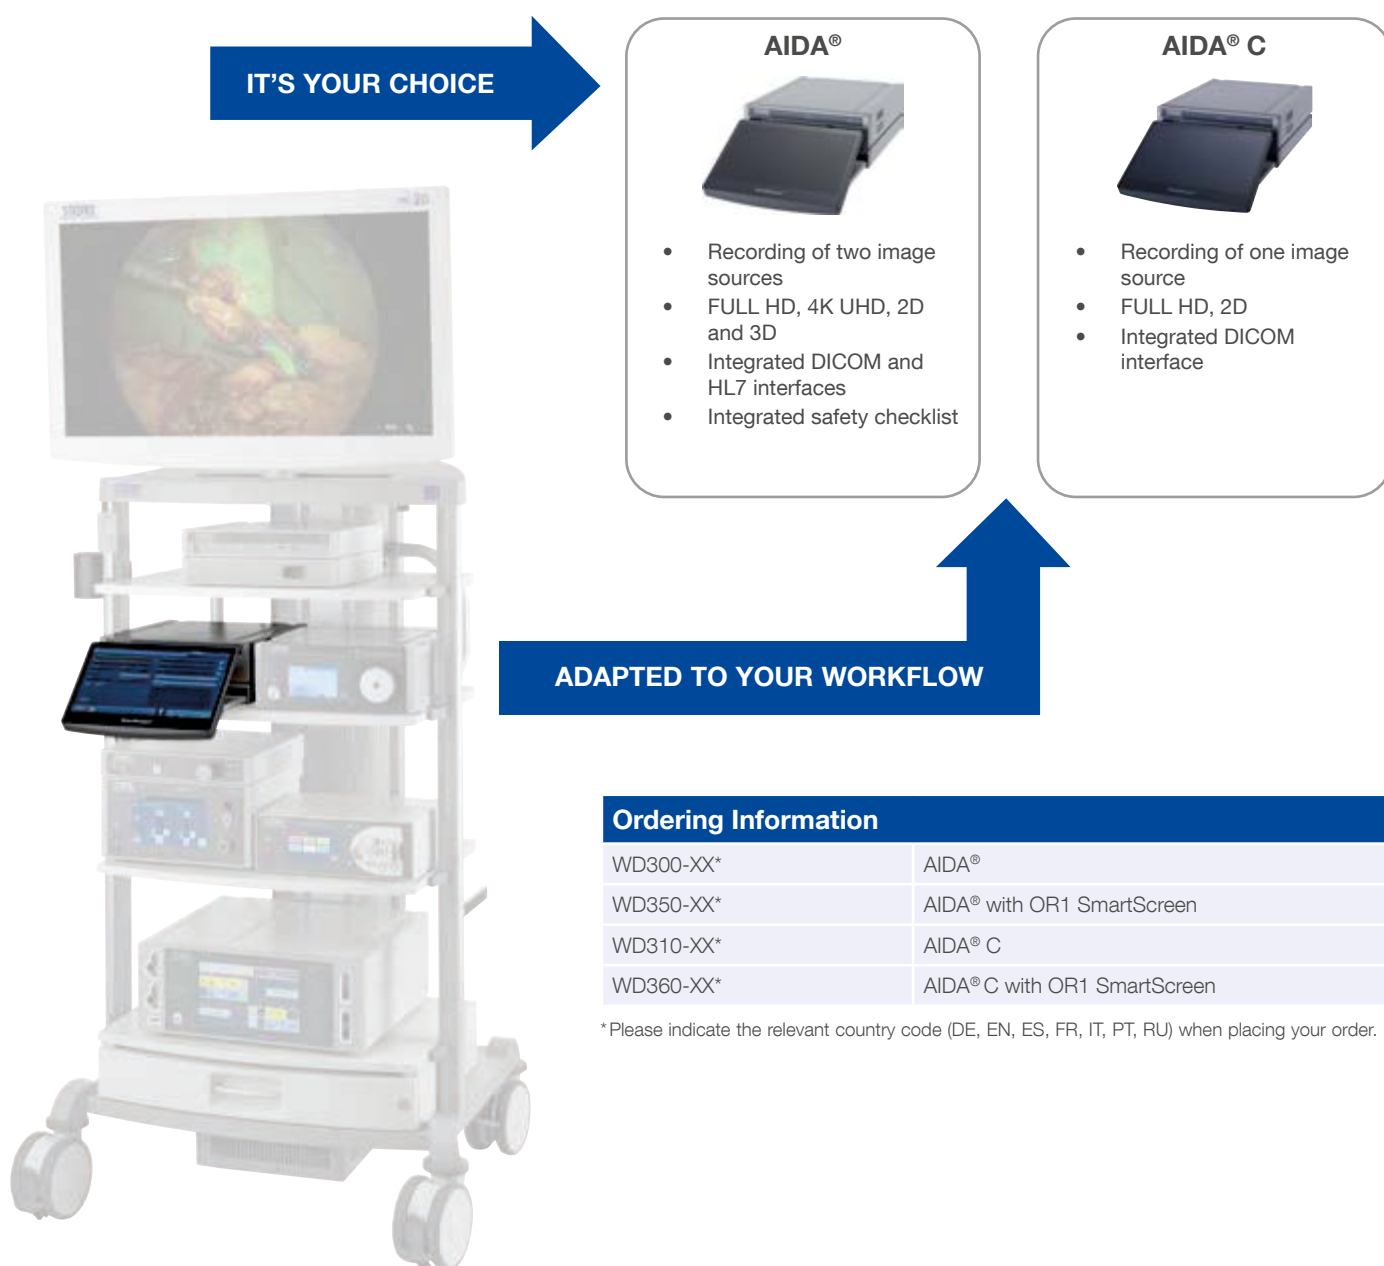

- Intelligent export manager automatically saves data in the background.
- Optimized and standardized workflows.

AIDA®

Adapted to your workflow

COMPATIBILITY

- Integrate AIDA® and AIDA® C into your existing IT infrastructure to import patient and procedure data and ensure automated and safe transfer of your recorded data.
- A harmonized imaging and documentation chain is achieved in combination with the KARL STORZ camera systems RUBINA™ and TELECAM C3.
- SCENARA® Content Management allows access to the recorded image and video data at any time, and from any location.
