VETPUMP® 2
Precision Suction & Irrigation System
Features:

- Powerful suction and irrigation pump for both rigid and flexible KARL STORZ endoscopes
- There is no exchange of air between bottles, eliminating any potential contamination of clean irrigation fluids
- Micro-processor controlled unit is quiet and responsive; unit is completely silent when trumpet valves are not activated

- Irrigation pressure and suction vacuum can be regulated separately
- User-selected pressures are precise, powerful and reproducible
- Versatile hand piece attaches to catheters, irrigation tubes, or directly to endoscope channel
- Bottles, tubing and handle are fully autoclavable

Cleaning ears has never been so easy

The VETPUMP® 2 from KARL STORZ puts the safest and most effective flushing and suction at your fingertips!

More powerful, more precise and safer than other units, the VETPUMP® 2 is the ultimate device for lavage and suction during otoscopy, gastroscopy and more.
