VETPUMP® 2
Precision Suction & Irrigation System
Cleaning ears has never been so easy

The VETPUMP® 2 from KARL STORZ puts the safest and most effective flushing and suction at your fingertips!

More powerful, more precise and safer than other units, the VETPUMP® 2 is the ultimate device for lavage and suction during otoscopy, gastroscopy and more.

Features:

- Powerful suction and irrigation pump for both rigid and flexible KARL STORZ endoscopes
- There is no exchange of air between bottles, eliminating any potential contamination of clean irrigation fluids
- Micro-processor controlled unit is quiet and responsive; unit is completely silent when trumpet valves are not activated
- Irrigation pressure and suction vacuum can be regulated separately
- User-selected pressures are precise, powerful and reproducible
- Versatile hand piece attaches to catheters, irrigation tubes, or directly to endoscope channel
- Bottles, tubing and handle are fully autoclavable

Check out our schedule of upcoming hands-on training courses at http://go.karlstorz.com/eventsVET
69321601  **VETPUMP® 2**, power supply 100/120/230/240 VAC, 50/60 Hz including:

- **Suction Bottle**, 1.5 l, sterilizable
- **Bottle Cap**, for use with suction bottle 1.5 l, sterilizable

- **Irrigation Bottle**, 1 l, sterilizable
- **Bottle Cap**, for use with irrigation bottle

- **Bottle Holder**, for suction bottle
- **Bottle Holder**, for irrigation bottle
- **Bacterial Filter**

- **Mains Cord**
- **Mains Cord**, US-version

Accessories for Otoscopy:

- **Silicone Tubing Set**, irrigation-suction from unit to bottles, **autoclavable**
- **Instrument Tubing Set**, autoclavable, to connect VETPUMP® 2 bottles to handle
- **Handle**, for irrigation and suction, autoclavable, for use with tubing set 69811, in conjunction with 5 mm suction and irrigation tubes or catheters any size with Luer Lock connection

Accessories for Abdominal/Thoracic Lavage:

- **Silicone Tubing Set**, irrigation-suction from unit to bottles, **autoclavable**
- **Instrument Tubing Set**, autoclavable, to connect VETPUMP® 2 bottles to handle
- **Handle**, straight, with clamping valve, for suction and irrigation, autoclavable, for use with 5 and 10 mm suction and irrigation tubes
- **Adaptor**, for use with suction and irrigation Handle 37112A, plus Instrument Tubing Set 69811, package of 5
- **Gas filter**, for single use, sterile, package of 10, with male Luer-Lock connector for attachment to irrigation connector on unit

Accessories for Gastrointestinal Endoscopy:

- **Silicone Tubing Set**, for suction only, sterilizable
- **Silicone Tubing Set**, for insufflation, attaches to light source adaptors 487VE or 69487KVE
