Whether you prefer the Multi-Port or Single-Port technique, minimally invasive ovariection and ovariohysterectomy using a KARL STORZ LAPspay® surgery system offers the following advantages:

- Unsurpassed optics for a clear, bright, enlarged view
- Less pain for the patient since tissues are cauterized and transected with precision, rather than torn
- Complications, such as wound dehiscence, ovarian remnants and ligated ureters, are reduced to a minimum
- Reduced chance of infection due to minimal exposure of the abdomen
- Faster recovery due to small incision size
- Satisfied clients who demand the best for their pets
- Practice expansion through state-of-the-art surgical services
- The opportunity to improve your laparoscopy skills, which can be applied to numerous other minimal access surgical techniques
