The C-MAC® Pocket Monitor
Portability with real-time documentation
The premium class of video laryngoscopy

The C-MAC® POCKET MONITOR sets new standards in image quality for mobile video laryngoscopy. Its unique display allows intuitive work, even in emergency situations.

- 3.5” OTI® display with wide viewing angle of 160°
- Real-time documentation of images and videos via the BlueButton
- Equipped with the C-MAC® system interface, ready for future applications
- IPX8: Absolutely water- and dustproof, validated for wipe disinfection

C-MAC® video laryngoscopes (reusable)

- Standard MACINTOSH and MILLER blades for safe intubation of infants, children, and adults
- Highly curved D-BLADE and D-BLADE Ped for the particularly difficult airway
- The highest ergonomic requirements – specially designed and shortened handle
- Robust and lightweight: High stability and resistance to impact; light metal design

C-MAC® S video laryngoscopes (for single use)

- C-MAC® S IMAGER with C-MAC® system interface
- C-MAC® S video laryngoscopes available as MAC #3, MAC #4 and D-BLADE versions
- Optimal protection against cross-contamination as blade and handle form one continuous piece
- Extremely high tensile strength
- Compact design with ergonomic handle

Premium accessory

- The C-MAC® PM connecting cable enables flexible positioning of the monitor for difficult-to-access patients
- Uninterrupted readiness at no extra cost thanks to exchangeable and rechargeable battery
- Foreign body forceps specially adapted to the MACINTOSH blade and curved video laryngoscopes
- Special bag designed for the C-MAC® POCKET MONITOR, C-MAC® video laryngoscopes and accessories
C-MAC® PM – can be used at any time and in any place

It is recommended to check the suitability of the product for the intended procedure prior to use.
