Slim gastroscope with a  
standard working channel

**STORZ**  
KARL STORZ — ENDOSKOPE

## Slim gastroscope with a standard working channel

### Your partner for more demanding tasks

An elegant gastroscope, designated in our portfolio as Medium size.

This gastroscope offers the same size working channel as the routine version, but housed in a much slimmer working shaft.

It is therefore equipped to meet various challenges and is suitable for use in the everyday working routine as well as in pediatric interventions.

It is recommended to check the suitability of the product for the intended procedure prior to use.  
Please note that the described products in this medium may not be available yet in all countries due to different regulatory requirements.

- Brilliant, true-to-life images
- Three control buttons with 9 functionalities
- Ergonomic control handle made of robust, light metal
- Backward and forward compatibility
- IMAGE1 S™ FULL HD system and S-Technologies image enhancement modes
- LED illumination and air/CO<sub>2</sub> insufflation via CO<sub>2</sub>MBI® LED light source available

- Excellent bending characteristics maximizing ease of use
