The DRILLCUT-X® II-35 Handpiece with 35k Sinus Burrs
For fast and precise work
The DRILLCUT-X® II-35 Handpiece with 35k Sinus Burrs
For fast and precise work

In conjunction with the new 35k sinus burrs, the DRILLCUT-X® II-35 handpiece represents an efficient expansion of the KARL STORZ product portfolio. Specially optimized for the highest speeds, this handpiece together with an assortment of new sinus burrs allows fast and precise work. This saves valuable surgery time so that procedures in sinus surgery are considerably more efficient. The compatibility with the existing UNIDRIVE® S III ENT makes the handpiece and burrs an attractive option, also from an economic perspective.
