

# OFFICE DIAGNOSTIC & PROCEDURAL PLATFORM

## Maximum Utilization, Minimal Footprint

TELE PACK X LED is your procedural platform for providing advanced diagnoses and performing minimally invasive procedures in your office. We understand that, just like in the operating room, you are focused on three objectives:

- Process optimization
- Continuous quality improvement
- Increasing patient satisfaction

The KARL STORZ office diagnostic and procedural platform can help you attain these goals.

KARL STORZ – ENDOSKOPE

# OFFICE DIAGNOSTIC & PROCEDURAL PLATFORM

## Maximum Utilization, Minimal Footprint

With the TELE PACK X LED as the endoscopic hub of your office, you can offer a wide variety of procedures, including:

- Stroboscopy
- FEES
- Simple FESS Procedures
- Inferior Turbinate Reduction
- Nasal Polypectomy
- Balloon Dilation
- Epistaxis
- Biopsy
- Vocal Fold Injection
- Middle Ear Exploration

Integrated recording and playback helps to enhance patient education and integration into the examination process. With the addition of StreamConnect®, our secure content management system, you can seamlessly integrate exams into electronic health records (EHRs) and perform side-by-side comparisons to track patient progress.
