1 Introduction

The Surgical Information System (SIS) is a KARL STORZ software platform that provides central access to applications (apps), for instance for image or video viewing and editing or video streaming. The web-based software interface allows opening apps on both desktop computers and mobile devices.

2 Intended use

The Surgical Information System is a KARL STORZ software platform from which medical and non-medical applications can be started. The Surgical Information System is not intended for diagnostic or therapeutic procedures.

The Surgical Information System is not a medical device as defined by the Medical Device Directive 93/42/EEC or the Medical Devices Act (Medizinproduktegesetz).

3 Target group

This manual was written for medical and IT staff. Medical staff includes physicians, nurses, and assistants as well as OR managers.

4 System requirements

Please refer to the document “Surgical Information System – System Requirements.”

5 Safety information

5.1 Types of warnings

**CAUTION:** Caution messages draw attention to certain maintenance or safety measures that must be taken to prevent damage to the system.

**IMPORTANT:** These messages contain special information on operating the system or describe important matters.

5.2 General safety instructions

**CAUTION:** Data loss. Hardware or software malfunction may cause irreversible data loss. Therefore, be sure to regularly back up settings.
6 Starting the SIS

You can use the SIS on desktop computers as well as on mobile devices.

Prerequisites

Desktop computers
- Microsoft Internet Explorer 11 \ Windows 7
- Microsoft Edge 44 (18)+ \ Windows 10
- Google Chrome 71+ \ Windows 7/10
- Apple Safari iOS 12+ \ iPad

Mobile devices
- Apple Safari iOS 12+ \ iPhone

Opening the application
1. Open the URL of the SIS (https://<IP>/SIS/Launcher) in your browser.
   - The SIS opens.
7 My Apps tab

The My Apps tab gives you access to all available apps.

Opening apps
Click on the desired app to open it. The app homepage opens in another tab of your browser. If necessary, you can log in with your username and password in that tab.
8  KARL STORZ App Store tab

The App Store offers information on various SIS apps as well as other KARL STORZ products. You can view information on each product and download further documents.

Viewing and downloading product information

2. Click on the desired product.
   - The product information will be displayed.

3. To download further documents on the product, click on the desired document on the right under Further information.
9 Displaying information

Press the Info button on the top right of the application to view the following software information.

- **Info**: Version information and Support contact details.
- **EULA**: End User License Agreement.
- **Licenses**: Licenses for third-party components.
