

# PRISTINE 4K VISUALIZATION BY KARL STORZ

## Enhance Your EVH Experience

KARL STORZ offers 4K and beyond visualization with IMAGE1 S™ video architecture that provides a superior image for the new Saphena Medical EVH solution, Venapax®.

- Anatomical details defined with higher contrast, and 64 times the color shades compared to HD
- Minimize the need to refocus the camera due to an enlarged depth of field
- Experience less fatigue with a camera head that weighs less than half a pound
- Offers backward and forward compatibility with the IMAGE1 S™ video architecture

# PRISTINE 4K VISUALIZATION BY KARL STORZ

## Enhance Your EVH Experience

IMAGE1 S™ by KARL STORZ delivers a scalable and adaptable video architecture.

The versatile IMAGE1 S™ can be used with virtually all KARL STORZ camera heads and videoendoscopes, achieving outstanding image quality for all surgical disciplines. Enjoy 3D, NIR/ICG, and 4K visualization, with full forward compatibility.
