

VIDEO IN-SERVICE PROGRAM ANYTIME ACCESS, DOCUMENTED RESULTS

Education Meets Efficiency

Busy schedules, preoccupied staff, high-tech equipment... It's a real struggle making sure that everyone gets the training they need when they need it. At KARL STORZ, we understand the challenges you face. That's why your KARL STORZ video devices are covered by our Video In-service Program. This hassle-free program:

- Enables anytime access, from any computer in the OR
- Standardizes in-service training for everyone
- Provides documentation of completed assignments
- Eliminates the guesswork from hospital training
- Provides in-services on the components of the surgical video tower

VIDEO IN-SERVICE PROGRAM

ANYTIME ACCESS, DOCUMENTED RESULTS

Training at Your Staff's Fingertips

Whether you've brought in a new hire, a nurse from another service line, installed some equipment, started looking to fulfill JCAHO* requirements for staff education, or simply decided that your staff needs a refresher, the Video In-service Program provides the product training you need. Your staff can participate in a KARL STORZ in-service without waiting to coordinate schedules with your sales representative and staff. Covering the individual components in a video tower, it allows you to assign training modules, monitor progress, verify, and document completion—right from your Learning Management System (LMS).

The educational needs of your healthcare facility may change, but the completed documentation remains in one easy-to-reference location in your LMS. At last—complete control over your staff's operational training!
