

ARTip Cruise™

The art of positioning

With the new ARTIP CRUISE™, the portfolio concerning the VITOM® 3D system is expanded to include a motorized, controllable holding arm.

Fields of application

Open and microsurgical interventions in, e.g., neurosurgery, spine surgery and ENT

Pivoting

Easy maneuvering around the center point of the image

Ergonomics

Ergonomic and comfortable posture support for the surgeon thanks to flexible positioning of the holding arm

Control

Intuitive and precise positioning via the IMAGE1 PILOT – only one control element for VITOM® 3D and ARTIP CRUISE™

Teaching tool

Simplifies the OR workflow/possible to follow procedures on a monitor

Mobility

Easy to transport between operating rooms

Setup

Predefined basic positions for easy and fast setup

Synergy effect

Microscopy and endoscopy combined, e.g., when performing endoscopic-assisted microsurgery (EAM)

Position memory

Saves/recalls preferred positions

It is recommended to check the suitability of the product for the intended procedure prior to use. Please note that the described products in this medium may not be available yet in all countries due to different regulatory requirements.

The logo features the number '75' in a large, bold, blue sans-serif font. The '5' has a white circle in its center, resembling an endoscopic lens. Below the '75', the word 'Years' is written in a blue, cursive script font.
