

TELE PACK+ COMPACT ENDOSCOPY

The All-in-One Diagnostic and Procedural Platform

The TELE PACK+ is a comprehensive solution for endoscopy in the office and clinic setting. It enables advanced diagnosis and treatment at the same site of care.

- + Compact unit integrates everything needed for endoscopic imaging
- + Versatile system supports both rigid and flexible endoscopic procedures
- + Recording and playback function simplifies patient/family education
- + EHR integration makes it easy to communicate and track patient progress

STORZ
KARL STORZ – ENDOSKOPE

TELE PACK+ COMPACT ENDOSCOPY

The All-in-One Diagnostic and Procedural Platform

- + 18.5" touch-screen with on-screen keyboard
- + Full HD
- + Hygienic glass surface

- + LED light source
- + Automatic and manual light intensity modes

- + Perfect match for the HD-VIEW digital cystoscope
- + Compatible with rigid and flexible endoscopes

- + Integrated recording and playback
- + 50 GB internal storage
- + Encrypted data

- + Cyber secure
- + Network capability
- + User roles

Just like in the operating room, you focus on the “quadruple aim” in your office. The TELE PACK+ from KARL STORZ can help you achieve:

- + Intuitive all-in-one device that provides superior visualization for a variety of endoscopic procedures
- + Integrated recording and playback* to illustrate findings and recommendations
- + Improved clinician experience through a large HD display and touchscreen interface
- + Lower costs through a single unit that accommodates rigid and flexible endoscopes
