

StreamConnect®

Enterprise Collaboration Software

Overview

STREAMCONNECT® is a centralized and scalable web-based software solution designed to enable secure clinical collaboration, education, and business insights across the healthcare enterprise. By connecting communications, content management, and analytics across multiple care locations, hospitals are able to increase collaboration, minimize costs and standardize care delivery processes ... all while providing a better patient experience.

21%

Shortfall
of Surgeons*

Empower Education

It's predicted by **2050**, there will be a **21%** shortfall in the surgeon workforce.* Be part of the solution with technology that empowers remote education and trains the workforce of your business's future.

Reduce Risk

In 2020, **\$1.5M** was the maximum HIPAA fine. Reduce the risk of losing protected health information by securing data on the network and integrating clinical information with the EHR.

\$1.5M

HIPAA Fines
in 2020**

Clinical Content Management

Scale and Standardize

Video-On-Demand App & ehrLINC App

Reduce Risk

Reduce risk of large HIPAA fines (avg. \$1.5M)* by securing data on the network and integrating clinical content with the EHR.

Secure and Easy Access

Securely access and share clinical content from anywhere. Even share images with the patients' family immediately after the case.

Edit and Archive

View, edit, and download content from a standard web browser. Complete the patient record by archiving it to EHR, PACS, and VNA systems.

Clinical Collaboration

Reach the Enterprise

Live Streaming, Room-to-Room, Nursing Overview Apps

Empower Education

It's predicted by 2050, there will be a **21% shortfall*** in the surgeon workforce. Train your future workforce with technology that empowers remote education.

More Control, Less Interruption

Viewers watching live streams can select what source they want to see and ask questions via chat messaging to **avoid disrupting the clinical team.**

Clinical Conferencing

Connect the operating room to clinical support areas like pathology for **immediate results and consultations.**

Business Insight

Master Your Key Performance Indicators

Match Capital Spend to Utilization

Device Utilization App

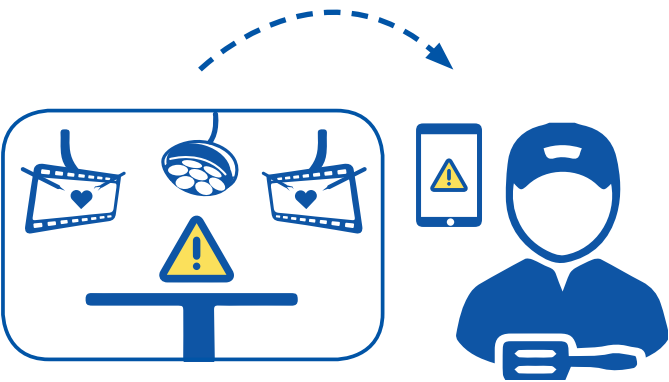

30% of hospitals have negative operating margins*

Your OR's have a story to tell. Uncover the data you need to make smart buying decisions with mobile device utilization reporting. You manage more than just KARL STORZ, so this solution works with any vendor's equipment.

Know of Issues Before Clinicians Do

Biomed Dashboard App

10sec.

Time from a critical failure to text notification.

Utilizing intelligent monitoring algorithms, STREAMCONNECT® sends text message alerts to Biomed and/or KARL STORZ onsite technicians when detecting a critical failure in an OR. Ensure you know of issues before clinicians do.
