

TELE PACK+ FOR ENT COMPACT ENDOSCOPY ON THE NETWORK

Content management for system-wide patient care

Make the transition from disorganized, unsecure USB storage, and siloed clinical images and video to:

- Efficiently organized content at your fingertips
- Peace of mind from secured patient data and clinical content
- Accessibility and collaboration across your enterprise

Patients require diagnosis, treatment, and care at multiple locations across your Enterprise. The TELE PACK+ is a compact all-in-one video system designed for endoscopic diagnosis and treatment, plus image capture with built-in network functionality enabling cybersecure networkability via StreamConnect® from your office or clinic.

TELE PACK+ FOR ENT COMPACT ENDOSCOPY ON THE NETWORK

Content management for system-wide patient care

CREATE clinical videos and images with a compact all-in-one endoscopic visualization system designed for the outpatient site of care that enables versatility via rigid and digital flexible scope compatibility, including stroboscopy, and also single-use.

ACCESS content system-wide to review side-by-side and frame by frame or to share, edit and organize videos and images stored on StreamConnect®

Content management via TELE PACK+ with StreamConnect® can help you attain these goals.

CAPTURE HD images and videos of surgical/clinical procedures. The ONLY Compact Endoscopy system built and priced for the Office/Clinic.

STORE by exporting data to StreamConnect®, a secure Content Management Solution.

Contact your local KARL STORZ representative for more information about this or other KARL STORZ products and programs, or call 800-421-0837.

It is recommended to check the suitability of the product for the intended procedure prior to use.
Please note that the described products in this medium may not be available yet in all countries due to different regulatory requirements.
