Online Suturing Course

Join our KARL STORZ /
MIS Academy Europe
Online Suturing Course

Content of the course:

- Theories and concepts of stitching
- Practical exercises to improve surgical suturing
- Learning of different knotting techniques
- How to face the difficulties of surgery

Laparoscopic suturing is an essential skill for performing laparoscopic surgery in General Surgery, Gynecology and Urology.

Therefore, together with the MIS Academy Europe and ID Trust Medical, KARL STORZ offers a brand new five day Online Suturing Course.

Within the course you will learn the different techniques of suturing including intra and extra corporal knots. Moreover, you will learn different practical tips and tricks to improve your surgical skills.

For the course you will get the new GESEA E-Knot Trainer permanently to train the challenging skills of laparoscopic suturing and knot tying in a simple way at any location even after the course using your own laptop.
