

# ONE World of Collaboration

Connect Clinicians. Engage Patients and Families.

# ONE World of Collaboration

**Connect Clinicians**  
**Engage Patients and Families**  
**Drive Efficiency**

## Build a Connected Path of Care

Streamline collaboration through telepresence, messaging, and clinical media management. KARL STORZ integration provides one platform for connectivity across the health system at multiple points of care.

**Consult**

**Pre-Op**

**Intra-Op**

**Post-Op**

Connecting patients, clinicians, and support teams across the world

**6,766**

Progress messages sent to patient families during surgery

**42,316**

Clinical images centralized for sharing and collaboration

**16,354**

Telepresence sessions to support education and collaboration

# Pre-Op

## ONE Day. ONE World. OR1®.

### Patient: Kim

- Family members enroll to receive text message alerts on the progress of Kim's procedure  
**#patientsfirst**

### Surgeon: Dr. Smith

- Pulls up PACS images over the network for pre-surgical confirmation  
**#accessPACS**

6:45 am

7:25 am

7:30 am

### Nurse: Emma

- Prepares room using a checklist, specific to this procedure, which is displayed on all monitors to make it visible to the entire OR team  
**#efficient**
- With just two clicks, sends a predefined text message from the OR to the surgeon that the patient is ready
- Patient information is auto populated from scheduling into the integration system to be ready for surgical recording

# Intra-Op

## Surgeon: Dr. Smith

Captures the images/videos during the surgical procedure while operating in 4K  
**#visualization**

## Nurse: Emma

Activates turnover measurement system as patient wheels out. Charge desk is automatically notified of status of turnover  
**#efficient**

Exports images/videos captured during procedure to the content management system to complete the patient record  
**#EHR #medrecord**

9:25 am

10:55 am

7:45 am

9:50 am

## Remote Surgeon: Dr. Kay

Connects to OR to view live endoscopic imaging and provide input to surgical approach  
**#remoteaccess**

## Pathologist: Dr. Levy

Connects to OR for a virtual consult, sharing live microscopic imaging without the surgeon breaking scrub

# Post-Op

## Biomed Engineer: Phil

Receives a text alert that a device in OR 8 has lost its connection and heads to reset the device before the next case is affected.  
**#remotemonitoring**

11:20 am

11:05 am

11:30 am

## Patient Family: Kim's Family

Receives a text message that procedure is complete and to meet the doctor in the waiting room

## Surgeon: Dr. Smith

Shares images/videos from procedure with patient family on a tablet connected to the content management system
