# An exciting journey that started two decades ago

Twenty years ago, we had the honor of introducing you to the technology of IMAGE1® that helped you see and treat patients in a new light. From 2D endoscopy to cutting-edge NIR/ICG visualization modes to visualize anatomical structures, we've come a long way.

## **S-Technologies - to identify different structures**

- CLARA: Homogeneous illumination
- CHROMA: Contrast enhancement
- CLARA + CHROMA: Homogeneous illumination and contrast enhancement
- SPECTRA A\*: Spectral color shift and switch
- SPECTRA B\*: Spectral color shift

YEARS OF CONNECTING  
YOU TO THE FUTURE OF IMAGING

# Delivering customized care for your patients

// The concept of the IMAGE1® is very favorable. You can upgrade your system just by changing the box present on the stack and you can also integrate new insufflator, new light source. It allows us to save money on the equipment. //
